

## Plan for Implementing Enhanced COVID Safe Practices (CSPs)

to safely provide in-person learning with rising COVID cases

Please submit this plan through email to [ashley.garcia@state.nm.us](mailto:ashley.garcia@state.nm.us) no later than 10/1/2021

If a school has 3% or more of its students and staff on campus while infectious in the past 14 days, it is strongly encouraged that the school implement this plan. If a school reaches 5% or more, it is required to implement this plan.

The COVID virus transmits primarily through aerosols in the air. CSPs should reduce exposure to aerosols. While it remains important to maintain clean facilities, extreme efforts to clean surfaces (such as spraying playground equipment between uses) is unlikely to significantly impact transmission rates. Another CSP that may not yield benefit in relation to its cost is using plexiglass, or other, dividers.

- 1) Place an X in the current or enhanced columns to indicate if a CSP is currently implemented or will be an additional CSP added with increased case counts
- 2) The first 18 CSPs in green are requirements and should be identified as current CSPs; not all white CSPs will be checked as current or additional CSPs
- 3) At least one CSP from CSPs 29-31 (in red) must be selected as a current or additional CSP

|   | Current | Enhanced | COVID Safe Practices  |  |
